KEZIA LEUNG

(646) 541-0907 | kezialeung21@gmail.com | New York, NY | linkedin.com/in/kezialeung | Portfolio: kezialeung.com

Detail-oriented digital coordinator who keeps websites on brand, searchable, and easy to navigate for every visitor.

EDUCATION

The University of Southern California, Dornsife College **Los Angeles, CA**
B.A. Cognitive Science, Minor in Computer Programming, GPA: 3.73 2021 - 2025

- Relevant Coursework: Full-Stack Web Development, Consumer Behavior and Marketing, Data Science, Python
- Certifications & Activities: Anthropic AI Fluency, Claude 101, Salesforce bootcamp; 4+ hackathons, LavaLab

DIGITAL & WEB EXPERIENCE

Freelance, Self-Employed **Remote**
Web Designer & Developer Apr 2025 - present

- Built and updated homepages, landing pages, promotional banners, and navigation for 3 clients in WordPress, Wix, and Webflow, writing HTML and CSS to keep every page on brand and driving increased bookings for each client.
- Wrote SEO metadata and keyword-focused page copy for each client site, then ran site audits to find and fix broken links and layout issues, keeping every site clean, searchable, and working well on both desktop and mobile.
- Cut prototyping from 1 week to 3 days with Figma AI and Claude, writing creative briefs that aligned each client on goals, timelines, and visuals before design so pages went live faster with fewer rounds of client revisions.

ConnectedFresh **Los Angeles, CA**
Product Management and Development Intern Jun 2024 - Aug 2024

- Consolidated 5 dashboards into 1 by reviewing engagement data in Google Analytics alongside user interviews, cutting support questions and creating the default dashboard that the whole team then adopted going forward.
- Kept 3 workstreams on track through Agile sprint planning, daily scrums, and Jira ticketing, acting as the bridge between engineers and cross-functional business teams and translating technical updates into plain language.
- Improved customer inquiry resolution 20% by writing user stories for a 20-use-case Zoho chatbot that automated the most common customer service questions, then trained the client's business users on the new flows at launch.

USC Innovative Design (Design Consulting) **Los Angeles, CA**
Student Product Manager & Front-End Developer Sep 2022 - May 2024

- Earned repeat work from 2 of 4 clients by leading a 4-person team from discovery to launch, redesigning 8 responsive pages per client and presenting design updates to client stakeholders in review meetings twice a month.
- Redesigned HearingDB's navigation and color system with a faculty researcher and a doctor, implementing changes in WordPress, HTML, and CSS and building a beta quiz that guides patients to the right hearing aid for them.

USC Asian Pacific American Student Services **Los Angeles, CA**
Marketing and Graphic Designer May 2023 - May 2024

- Improved attendee retention 15% in one year by designing 82 social graphics and 32 email newsletters for event campaigns, building reusable templates that kept every single piece consistent with the center's brand identity.

PROJECTS & LEADERSHIP

Cartpool (USC LavaLab) **Los Angeles, CA**
Co-Founder and Product Designer Jan 2024 - May 2024

- Won Best Demo out of 7 teams by running weekly A/B tests and 30+ user interviews to refine 6 prototypes, building a Figma design system with components and color tokens so every screen stayed consistent with our brand.

Kezpezfood (kezpezfood.com) | Figma, React, Vite, Supabase *Personal Project*

- Designed a restaurant review and food blog in Figma, then hand-coded it in React and Vite with a Supabase database and user login, taking the project from my first design all the way to a live site on my own domain.
